

A Yes.

Q I think you have already said you can't get in to Tract C over here on the west side except through Tract B?

A No, sir, no way except through that.

Q What kind of terrain is in Tract C; is it hilly or is it flat, or just how does it lay?

A It is kind of hilly.

Q You say it is kind of hilly? A. Yes.

Q Would you say hillier toward the river?

A Yes, hillier toward the river.

Q What about the northern piece?

A The northern part is hilly too.

Q How about Tract B; is that level or hilly? That is the big tract in the middle.

A I would say a part of that is level and part of it is hilly.

Q Would you say it gets hillier as you get toward the river?

A Yes, gets hillier as you go towards the river.

Q Are there any buildings other than the house?

A There was an old house on it, yes.

Q Where was that located?

A That was located in the corner where you first come into the corner there that runs out to the railroad.

Q In other words, in the northwest corner?

A No, it was in the east corner.

Q This direction is north on this map.

A Well, it would be in the corner.

Q That is the southeast or east portion?

A Yes.

Q That old house is no longer there?

A No, it fell down.

Q Are there any buildings on this Tract A?

A No.
